## PAPER PRODUCTS

The most popular product is a print of specified areas of the county, or by parcel, showing the 2001 aerial photography with tax map boundaries.

| Prints:     | Color   | Line only<br>Or B&W | Photo gloss/heavy bond<br>paper |
|-------------|---------|---------------------|---------------------------------|
| 34" by 44"  | \$25.00 | \$17.00             | (max < 24")                     |
| 22" by 34"  | \$20.00 | \$12.00             | + \$7                           |
| 17" by 22"  | \$10.00 | \$7.00              | + \$5                           |
| 11" by 17"  | \$5.00  | \$4.00              | + \$3                           |
| 8.5" by 11" | \$3.00  | \$2.00              | + \$1                           |

Regular prints are on coated bond (20 or 24#). Other materials may be available (transparency, adhesive backed, vellum etc). Prices are figured individually.

**Custom Work:** If requested plot is unusual or requires more information elements than standard requests, there will be an additional charge depending upon the work requested.

**DIGITAL PRODUCTS** – Digital files reproduced via diskette, CD or sent over the Internet.

### PARCEL BOUNDARIES:

Boundaries with parcel number and minimum attributes; 1:4800 and 1:2400 scales

- Entire County = \$135.00
- Town/Village = \$5.00 each
- City of Oneonta = \$20.00

Parcel records are also distributed from the Otsego County Information Technologies Department if the entire attribute dataset is requested. When only a small portion of the attribute dataset is requested, it can be provided with the map boundary file.

**AERIAL PHOTO FILES:** 2001 2ft resolution color infrared (1ft color in City of Oneonta)

- Individual files copied = \$1 each (MrSid compressed files)
- Specified areas exported to image file formats = \$5 each

**AERIAL PHOTO FILES:** 1995-1997 USGS 10 meter resolution color infrared (one large mosaic)

- Entire 500 MB file copied to CD = \$10 (MrSid compressed file – not available in other formats)

**MUNICIPAL BOUNDARIES:** With name, population 1990, population 2000; 1:4800 scale

- Entire County = \$10

**SCHOOL DISTRICTS:** With name and population 2000; 1:4800 scale

- Entire County = \$10

**VOTING DISTRICTS:**

- Entire County = \$10

**EMERGENCY SERVICE ZONES:** With name, code number, population 2000; 1:4800 scale

- Entire County = \$10

**ROADS/HWY/STREETS:** New E911 readdressing geo-coding; includes name, right/left address ranges, right/left town, street owner/type, comments; 1:4800 and 1:2400 scales

- Entire County = \$135

Current developments to road attributes include intersection types, speed zones, one-ways, traffic/load restrictions, bridge/overpass information. Please contact the Planning Department for expected dates of completion.

**Other data layers available for \$10 include:**

Watershed boundaries, U.S. federal wetlands, NYS regulated wetlands, principle aquifers, infrastructure, ponds, historic districts, agricultural districts, USGS topographic quadrangle scanned images, digital elevation model data, shaded relief, contours (20ft), Empire Development Zones, public parks, government points, census blocks, streams/lakes, soil survey and tourism accommodations/sites.

\*\*\*\*\*

**Notes:**

- Local municipal governments will receive 50% discount on all above services and products.
- All maps will contain a title block with north arrow and scale. Legends will appear as requested.
- The time frame for completion of map products is dependant on complexity of map details and other current work load. The minimum time frame required by this office for completion of work is two days.
