All of our recyclables (bottles, cans, paper and cardboard) are transported to a Materials Recovery Facility in the Ablany NY area. Materials are sorted and then sent to markets where they are processed into other consumer goods including fleece clothing, new containers and new paper products manufactured at facilities in the eastern U.S. The following guidelines are set by the facility we use:

- **(1) Plastics** – containers labeled # 1 - #7 on or near the bottom, *cannot* include containers that were formerly used for petroleum or other hazardous products, such as oil or antifreeze. NO STYROFOAM.
- **(2) Paper** – can include newsprint and glossy inserts, magazine, books (soft cover books), office paper, junk mail, and packaging such as beverage and cereal boxes. **Cardboard** – must be flattened. Cardboard cannot be wax-coated, wet, or soiled. Mix in with paper recyclables.
- **(3) Glass**– Green, amber and clear bottle & jug form, canning jars, deposit bottles, liquor and wine bottles, food & beverage containers.
- **(4) Metal** – Food/Beverage cans, deposit cans, aluminum foil (clean), aluminum plates & trays, empty aerosol cans, metal lids, pots, pans & bowls, tin & steel food/beverage containers
