

The Otsego County Solid Waste Department is proud to support, Ten Fold Plus in starting a program called "Oneonta's Bookcase for Every Child". They will be building a bookcase for children in the local Oneonta Head Start program and fill these bookcases with books. This will be a community literacy program that focuses on encouraging parents to read at home with their children.

Ten Fold Plus is planning on building over 90 bookcases. Children in the Oneonta Head Start Program will receive a bookcase, full of books. Each bookcase will also have an engraved nameplate at the top with each child's name.

We thank you in advance for any book donations to help fill up these bookcases!
