

INTRODUCING
POLYSTYRENE RECYCLING
BEGINNING JUNE 15, 2019

Otsego County residents can now recycle clean and empty **WHITE** foam polystyrene packaging! All polystyrene must be delivered to the Otsego ReUse Center located at 23 Duane Street, Oneonta NY 13820. Please deliver material in a **CLEAR** plastic bag. **DO NOT** drop off, but deliver to employees to assure it is acceptable.

Items Accepted Include: white meat trays, white cups, white take-out containers, egg cartons (all colors accepted), as well as polystyrene transport packaging used to protect TVs and other valuables during shipping. Foam polystyrene products should be prepared just like other recyclables in Otsego County. All material must be EMPTY and CLEAN. Remember recycle the package, not the food!
